

# Discrete Industrial Sensors Report - 2020

Part of the Discrete, Process, and Capital Equipment Service Area Package

**Margaret Spears, Research Analyst,  
Manufacturing Technology**

Publishing On July 2020

**This 2020 study provides a detailed analysis of the world market for 14 discrete industrial sensor types, presenting comprehensive insight into three major regional markets: Americas, EMEA, and Asia Pacific.**

The goal of this report is to provide product and marketing managers of discrete industrial sensors with key observations including forecasts related to the strength and direction of the industrial sensors market. Considerable emphasis is placed on providing the reader with the latest available information on how the economic environment in 2019 and 2020 will affect the market for discrete industrial sensors in the future.

## Executive Summary

### Introduction, scope, method

- Introduction and scope
- Product definition
- Scope limitations
- Market segmentation
- Regional definitions
- Industry segmentations
- Sales channel definitions
- Research methodology
- Exchange rates

### Trends impacting discrete industrial sensors

- Discrete industrial sensors and IIOT
- Communications – Connecting devices
- Wireless technology
- Big Data and asset monitoring
- Predictive maintenance
- Exchange rate fluctuations

- Pricing trends

### The world market for discrete industrial sensors

- World market overview
- Regional analysis
- Product type Pricing trends
- Industry sector
- Sales channel
- Other segmentations

### The world market for discrete industrial sensors

- Market structure
- Recent market movements
- Market share analysis

### Appendix One – Global Economic Outlook

### Appendix Two – GDP And Machinery Production
