

Distributed Control Systems Report - 2020

Part of the Discrete, Process, and Capital Equipment Service Area Package

Brian Arbuckle, Senior Market Analyst

Published On 5 February 2020

Comprehensive description of the world market for DCS, with trends that will affect the market over the next five years.

The report is designed to provide marketing and technical executives with an up-to-date analysis of the market for DCS and will identify the trends that will impact the market over the next five years. Geographic variations will also be discussed.

The specification of this study was developed in conjunction with leading suppliers of process automation systems. This report will have a strong emphasis on vertical markets, especially the largest process sectors. In-depth discussion of the vertical sectors and the general market will be provided in this report including Oil & Gas, Power, Refining & Petrochemicals, Chemicals, as well as other vertical markets. Competitive environment for each sectors will also be discussed, complemented by market share data.

Report Coverage

KEY ISSUES ADDRESSED	COVERAGE	APPLICABLE TO
<ul style="list-style-type: none"> What was the size of the worldwide DCS market in 2018? What is the outlook for 2019 and beyond? What changes will there be in the product mix offered to the market? What is the size of each industry sector? How do trends differ between industry sectors? What important factors are affecting these markets? What is the outlook for vertical markets for 2019 and beyond? What market shares do the leading manufacturers have overall and by industry sector? What are the opportunities and threats for the vertical markets? 	<p>Frequency, Time Period</p> <ul style="list-style-type: none"> 2018 Base Year 5-year annual forecast (2019 - 2023) <p>Measures</p> <ul style="list-style-type: none"> Revenues (\$M) <p>Regions</p> <ul style="list-style-type: none"> Europe Middle East & Africa North America Latin America Asia Pacific 	<p>Products Covered</p> <ul style="list-style-type: none"> DCS Hardware DCS Software DCS Services <p>Industry Sectors Covered</p> <ul style="list-style-type: none"> Oil & Gas Power Generation Power Transmission & Distribution Refining & Petrochemical Chemical Cement & Glass Food & Beverage Metal Processing Pharmaceuticals Pulp & Paper Water & Wastewater Other sectors <p>Market by Project Type</p> <ul style="list-style-type: none"> New Construction Installed Base - Expansion Project - MRO Project

ABOUT OMDIA

Omdia is a global technology research powerhouse, established following the merger of the research division of Informa Tech (Ovum, Heavy Reading, and Tractica) and the acquired Omdia technology research portfolio.* We combine the expertise of more than 400 analysts across the entire technology spectrum, covering 150 markets. We publish over 3,000 research reports annually, reaching more than 14,000 subscribers, and cover thousands of technology, media, and telecommunications companies. Our exhaustive intelligence and deep technology expertise enable us to uncover actionable insights that help our customers connect the dots in today's constantly evolving technology environment and empower them to improve their businesses—today and tomorrow.

*The majority of Omdia technology research products and solutions were acquired by Informa in August 2019 and are now part of Omdia.
