Advance your competitive position by leveraging Omdia’s critical insight on the changing markets for pumps, fans and compressors

In the current economic climate, making the right decision is crucial. In an ever-changing market, utilizing proper guidance is paramount. This three-database research package on pumps, fans and compressors is the first of its kind, and offers coverage into more than 30 different market segments and three major regions. Five year forecasting by market segment aids educated decisions yielding future rewards.

Three databases are offered for individual or joint purchase:

- Centrifugal Pumps
- Industrial Air & Gas Compressors
- Fans & Blowers

A detailed Excel database and PDF trend analysis are provided for each database, giving an in-depth view into market sizing, market share and forecasts. You get access to comprehensive market statistics by product type, country, major region, sales channel and industry sector. You can also reference global and regional forecasts for revenues, units and ASPs into 2020.

**KEY ISSUES ADDRESSED**
- What is the current size of the global market for motor-driven equipment? How does this differ by region?
- Who are the leading suppliers for each product type in each region? Which companies have lost or gained market share?
- What are the new technologies being used in product development?
- How has Covid-19 affected future growth opportunities in the end-equipment markets?

**DELIVERY TIMELINE**
- July 2020: Motor Driven Equipment Report
- Excel based data sets for Centrifugal Pumps, Fans & Blowers, Industrial Air & Gas Compressors, PDF trends analysis
- Access to analyst

**APPLICABLE TO**
- Marketing: Directors, Managers, Strategic Marketing, Corporate: Executives, Investor Relations
