## A new report analyzing this dynamic market from a regional and product perspective.

This will be the first edition of the Omdia report on the industrial and security flat panel detector market.

This report will provide in-depth global coverage of the industrial and security detector market in 12 key regions, to assist in strategic decision making. Market size estimates will be provided in terms of revenues, unit shipments and average selling price, using a base year of 2019 with a 5-year forecast. Further analysis will be provided for the industrial and security applications, with industrial segmented by Aerospace & Defense, Automotive, Construction, Electronics & Semiconductors, Explosive Ordnance Disposal & Improvised Explosive Device, Heavy Industries, Manufacturing, Marine, Oil & Gas, Power & Energy, Transportation Infrastructure, Food & Drugs, and Others. The products will be split by energy type (Low, Medium and High) and panel technology type (Static vs Dynamic or Line scan and TDI). Furthermore, regional competitive analysis for the global industrial and security detector market will be provided.

The report will provide a clear and concise outlook on the market, giving vendors and other industry stakeholders crucial insight into the opportunities and dynamics of the market over the forecast period. This prospectus invites instigators to guide the scope and segmentation of the report.
