Addressable Consumer Devices Intelligence Service

Part of the Media & Entertainment Service Area Package
In-depth country level data, forecasts and analysis of the different devices owned and used by consumers to help provide clients with a holistic view of device ecosystems and trends.

“The device ecosystem moves quickly, with new features and completely new device types emerging regularly. This service takes a birds-eye view of the entire devices landscape to help our partners stay ahead of disruptive trends in the industry.”

David Tett
Lead Analyst
Addressable Consumer Devices Intelligence Service

How Omdia Helps You

- Size the entire consumer device market, leveraging expertise from Omdia’s deep device research
- Examine the growth of different ecosystems and technologies across multiple device segments
- Understand the strengths and weaknesses of the important players across these various device segments
- Identify underserved consumers to assist with product launch and strategy decisions

Key Questions Addressed

- How many addressable devices are there for video OTT services in a country? How are these split by device type or by platform?
- What are the ownership trends for devices? How many actual users exist for the various devices and what is the profile of customers with many devices or few devices? What are the emerging technologies that will shape device ownerships and consumption trends? How quickly are these trends gaining popularity? Who is driving these trends?
- Who are the key players across the landscape of consumer devices? How do their strategies, platforms, technologies differ?

Addressable Consumer Devices: Migration to a Combined Product

Relevant to Subscribers of Legacy Products

- Consumer Tech (Ovum)
- Connected Devices Intelligence Service (IHS Markit Technology)

The new Addressable Consumer Devices IS will be a joining of the legacy IHSM Connected Devices Intelligence Service Intelligence Service and the legacy Ovum Consumer Tech service

BENEFITS AND FEATURES OF NEW SERVICE

- **All Subscribers:**
  - Greater focus on the macro trends across all device segments; analysis of the strategic positioning of key players across multiple device segments.
  - Additional forthcoming forecasts examining the addressable market for Media & Entertainment services.
  - Standardized country level coverage across devices enabling a complete view of the devices ecosystems in those markets.

OTHER CHANGES

- Ovum Consumer Tech customers looking for more detailed device coverage should look at intelligence services aimed specifically at those devices such as Smartphone IS, Television IS, Mobile PC IS.

- This service does contain less device level data than what was included in Ovum Consumer Tech. The device level data contained in this service will be of higher quality because it is informed by the extensive IHSM primary device research practices, with additional benefits detailed on next slide.
Addressable Consumer Devices: Migration to a Combined Product

**Relevant to Subscribers of Legacy Products**
- Consumer Tech (Ovum)
- Connected Devices Intelligence Service (IHS Markit Technology)

The new Addressable Consumer Devices IS will be a joining of the legacy IHSM Connected Devices Intelligence Service and the legacy Ovum Consumer Tech service.

**BENEFITS AND FEATURES OF NEW SERVICE**

- **Legacy Ovum Consumer Tech Subscribers:**
  - Side-by-side comparisons of device adoption trends
  - More in-depth coverage of the platforms that run across device segments
  - Details on platforms now included on more devices
  - More country coverage for non-smartphone devices

- **Legacy IHSM Connected Devices Intelligence Service Subscribers:**
  - More in-depth analysis and reports on the technologies and features of the various devices such as AI capability or eSIM
  - Big picture strategic views qualitative reports informing current and future market landscape
  - Wearables and smart watch coverage added

ABOUT OMDIA

Omdia is a global technology research powerhouse, established following the merger of the research division of Informa Tech (Ovum, Heavy Reading, and Tractica) and the acquired Omdia technology research portfolio*. We combine the expertise of more than 400 analysts across the entire technology spectrum, covering 150 markets. We publish over 3,000 research reports annually, reaching more than 14,000 subscribers, and cover thousands of technology, media, and telecommunications companies. Our exhaustive intelligence and deep technology expertise enable us to uncover actionable insights that help our customers connect the dots in today’s constantly evolving technology environment and empower them to improve their businesses—today and tomorrow.

* The majority of Omdia technology research products and solutions were acquired by Informa in August 2019 and are now part of Omdia.
