TV & Online Video Intelligence Service

Part of the Media & Entertainment Service Area Package
Global, in-depth data and forecasts for the TV and online video sectors. TV & Online Video Intelligence Service, uniquely, includes highly granular operator-level metrics. This service also provides access to selected device data to facilitate insights into evolving video viewing patterns. This service also includes regular thought-provoking analysis in form of written reports and presentations.

“Change is the only constant in today’s TV and online video sector. This makes access to robust, reliable and comprehensive data and forecasts essential if businesses are to be truly informed about the sectors they operate in or are looking to expand into. TV & Online Video Intelligence Service provides such data.”

Maria Rua Aguete
Senior Research Director
**TV & Online Video Intelligence Service**

*Part of the Media & Entertainment Service Area Package*

### HOW OMDIA HELPS YOU

- Constantly updated and comprehensive market data and forecasts across TV and Online Video metrics that help to illustrate market fragmentation and other usage patterns.
- Contains Omdia’s most granular-level data down to the operator level.
- Provides reliable data and forecasts to assist clients with their investment decisions.
- Flow of analytical reports
- Direct access to expert analysts

### KEY QUESTIONS ADDRESSED

- How are key OTT video services like Netflix and Amazon Prime performing? In which countries are they expected to perform best over the next five years?
- What are the size, share, and forecasts for key video and related sectors – Television, OTT Video, Smartphones and other devices?
- Where is traditional TV holding up best? In which markets is traditional TV still growing?

ABOUT OMDIA

Omdia is a global technology research powerhouse, established following the merger of the research division of Informa Tech (Ovum, Heavy Reading, and Tractica) and the acquired Omdia technology research portfolio*. We combine the expertise of more than 400 analysts across the entire technology spectrum, covering 150 markets. We publish over 3,000 research reports annually, reaching more than 14,000 subscribers, and cover thousands of technology, media, and telecommunications companies.

Our exhaustive intelligence and deep technology expertise enable us to uncover actionable insights that help our customers connect the dots in today’s constantly evolving technology environment and empower them to improve their businesses—today and tomorrow.

* The majority of Omdia technology research products and solutions were acquired by Informa in August 2019 and are now part of Omdia.
