

DRAM Memory Intelligence Service

Part of the Memory & Storage Service Area Package

Comprehensive examination of DRAM technology, its respective applications, pricing and supply/demand dynamics

“ The DRAM market has expanded from PCs and smartphones to data centers, and new markets such as A.I, edge computing and automotive are coming. ”

Lino Jeng
Principal Analyst

DRAM Memory Intelligence Service

Part of the Memory & Storage Service Area Package

HOW OMDIA HELPS YOU

- DRAM roadmap and technology transitions
- Detailed picture of the supply landscape
- Comprehensive demand analysis covering key application markets
- Monthly pricing data on major products
- Competitive rankings of suppliers by geography
- Close integration with NAND Memory Intelligence Service, SSD & HDD Intelligence Service, and the Mobile & Embedded Intelligence Service, resulting in an all-inclusive understanding of the memory market.

KEY QUESTIONS ADDRESSED

- What is the DRAM market forecast in terms of bit growth, ASP, and revenue, both near-term and a look four years ahead?
- What applications are driving DRAM bit demand?
- What is the supply/demand environment, and what is the impact on projected ASPs?
- Who are the DRAM manufacturers, what are their fab growth plans, and what are the company's technology roadmaps?

DRAM Memory: Deliverables

MARKET TRACKERS

—Quarterly—

- DRAM Market Tracker
- DRAM Module Market Tracker

MARKET INSIGHTS

—Monthly—

Studies key market trends, analysis on product, technology and applications, and monthly pricing updates.

PRESENTATIONS

—Ongoing—

Scheduled market briefings by request with our lead analysts

ANALYST ACCESS

—Ongoing—

For prompt responses to urgent and unique questions.

DRAM Memory: Market Trackers

DRAM Market Tracker

Provides detailed analysis and forecasts of the market by application markets, technology, density and manufacturing developments as well as insights into significant trends and changes in the marketplace; accompanied by a written analysis

DETAILS

Frequency: Quarterly

Measures

- Revenue
- Unit shipment
- Bit shipments
- ASP
- Market shares
- Supply and demand

Regions

- Worldwide
- America
- Europe, Middle East & Africa
- Asia Pacific
- China
- Japan

COVERAGE

Application Markets

- Server
- PC
- Smartphones
- Tablets
- Consumer electronics
- Networking
- Automotive
- Industrial

Technologies

- SDRAM
- DDR
- DDR2
- DDR3
- DDR4
- DDR5
- Mobile DRAM
- Graphic
- Emerging memory

DRAM Module Market Tracker

Database offering short- and long-term market forecasts by application, technology and module density, as well as key supplier analysis; updated semi-annually.

DETAILS

Frequency: Semi-annual

Measures

- Revenue
- Unit shipment
- Bit shipments
- ASP
- Market shares
- Supply and demand

Regions

- Worldwide
- America
- Europe, Middle East & Africa
- Asia Pacific
- China
- Japan

COVERAGE

Application Markets

- Server
- PC
- Networking

Technologies

- DDR4
- DDR5

DRAM Memory: Report

DRAM Dynamics Market Brief

Studies key market trends, analysis on product, technology and applications, and monthly pricing updates.

DETAILS

Frequency: Monthly

Updated monthly DRAM prices, analysis of current market conditions, key demand and supply dynamics and implications from various end applications.

About Omdia's Memory & Storage Research

Omdia's memory and storage team brings years of industry experience, from memory manufacturing, to SSD engineering, and corporate memory business/market intelligence. The team has in-depth knowledge of how the memory markets evolve, the psychologies of what drives the industry, as well as future trends that may impact the markets.

Additionally, the memory and storage team has access to the vast internal resources Omdia has to offer, such as application research and demand, as well as a full suite of semiconductor manufacturing reports and analysis to get a full view on the markets.

ABOUT OMDIA

Omdia is a global technology research powerhouse, established following the merger of the research division of Informa Tech (Ovum, Heavy Reading, and Tractica) and the acquired Omdia technology research portfolio*. We combine the expertise of more than 400 analysts across the entire technology spectrum, covering 150 markets. We publish over 3,000 research reports annually, reaching more than 14,000 subscribers, and cover thousands of technology, media, and telecommunications companies.

Our exhaustive intelligence and deep technology expertise enable us to uncover actionable insights that help our customers connect the dots in today's constantly evolving technology environment and empower them to improve their businesses—today and tomorrow.

* The majority of Omdia technology research products and solutions were acquired by Informa in August 2019 and are now part of Omdia.
