

# Audio & Video Door Phones Report - 2019

Part of the Physical Security Technologies Service Area Package

**Oliver Philippou, Research Manager, Physical Security**

Published On March 2019

## This document outlines the coverage of the 2019 edition of “Audio & Video Door Phones Report.”

Building on the 2016 edition, this new research analyzes the latest changes and explores how factors such as commercial market adoption rates, smart home and growing consumer awareness, increased adoption of IP door phones, and the use of video analytics will affect growth of both emerging and developed markets.

### ABOUT OMDIA

Omdia is a global technology research powerhouse, established following the merger of the research division of Informa Tech (Ovum, Heavy Reading, and Tractica) and the acquired Omdia technology research portfolio.\* We combine the expertise of more than 400 analysts across the entire technology spectrum, covering 150 markets. We publish over 3,000 research reports annually, reaching more than 14,000 subscribers, and cover thousands of technology, media, and telecommunications companies. Our exhaustive intelligence and deep technology expertise enable us to uncover actionable insights that help our customers connect the dots in today's constantly evolving technology environment and empower them to improve their businesses—today and tomorrow.

\*The majority of Omdia technology research products and solutions were acquired by Informa in August 2019 and are now part of Omdia.

# Table of Contents

## Chapter 1 - Introduction, scope, and method

This chapter outlines the specification of the research, including important definitions for products and end-user sectors, and describes the research method.

## Chapter 2 – The world market statistics and trends

This chapter discusses the major factors (economic and technological) affecting the market for audio and video door phones and presents world market statistics in detail.

The market statistics use 2018 as a base year and provide year-on-year forecasts to 2023. (The same standard is applied to the statistics in chapters 3, 4, and 5.) An accompanying Excel file is provided; a sample is available upon request.

## Chapter 3 - The American market statistics and trends

This chapter presents and analyzes data on the American market for door phones.

## Chapter 4 - The Asian market statistics and trends

This chapter presents and analyzes data on the Asian market for door phones.

## Chapter 5 – The EMEA market statistics and trends

This chapter presents and analyzes data on the EMEA market for door phones.

## Chapter 6 – The competitive environment

This chapter reviews the supplier side of the market for audio and video door phones. Market share estimates are presented for the largest vendors of door phones (audio and video, audio only, and video only) in terms of revenues, by geographic region. Shares are presented for the 2018 calendar year.

### NEW FOR THIS EDITION

- More detailed discussion on the door phone market in China
- More detailed discussion on the door phone market in SEA
