

Fire Detection & Suppression Equipment Report - 2020

Part of the Physical Security Technologies Service Area Package

David Gonzalez,
Research Analyst, Access Control & Fire

Published On June 2020

Omdia's Fire Detection and Suppression Equipment Report is part of Omdia' coverage of the security and building technologies market. (further information available upon request)

Omdia recently published the *Fire Detection and Suppression Equipment Report – Global - 2020*. The report was developed using a variety of sources, including interviews and questionnaires from top manufacturers. Detailed discussion and analysis supports the market data and forecast information across nine hardware types, 16 end-user industries and six geographic regions. This report evaluates the development of key trends such as remote monitoring, wireless technology and advancements made in fire technologies. The base year for this study is 2019 with forecasts through 2024.
