The global market for security systems integration by end-user industry

This document summarizes coverage of the report “Security Systems Integration”.

Building on the success of the 2019 edition, this new report analyzes latest changes and explores how factors such as Cloud-managed solutions, transformation of traditional security integrator, legislation and cyber security will affect growth of this market. Clients of this report receive:

- **Market Share Tables:** Market share estimates for the largest security systems integrators in 19 regions and sub-regions. These are delivered in MS Excel.
- **Forecast Tables:** Market sizes and forecasts by service and equipment and also by end-user industry for 30 regions and sub-regions. These are delivered in MS Excel.
- This security systems integration report provides marketing and technical executives with an up-to-date and comprehensive assessment of the global physical security systems integration market and forecasts the impact of important trends from 2020 to 2025. This report also provides detailed market estimates of revenue in 2020 and forecasts growth from 2020 to 2025.

Security Systems Integration: Market, Sizing, Forecasts & Analysis

Security Systems Integration Report

This PDF provides detailed descriptions of the service scope, research taxonomy and definitions by product type and research segmentation. This document also provides commentary on the most important macro trends which affect the industry.

Accompanying the database this PDF provides the analysis of security system integration (design and consultancy, installation, maintenance, and security equipment) and services market sizing and forecast database.

Analysis includes explanation of changes, detailed insight of product and regional trends picked out from the data.

Security Systems Integration Report

Delivered in Excel, this database provides comprehensive market size data and forecasts for the security systems integration market. Historical data is also provided back to 2019.

Frequency: Base year for most recent calendar year and 5-year annual forecast.
Historical data (2020-base year)

- Regional and global market forecasts
- Equipment and services market sizes
- Regions are divided into 26 sub-regions
- Revenues for end user sectors
- Units, revenues and ASP data

Measures

- Revenues
- Unit shipments
- ASP

Regions Database structured by following regions:

- Video Surveillance Installed Base
- Biometrics

About Omdia's Physical Security Technologies Research

Omdia is the world's leading provider of market intelligence to the security industry, with an impressive customer base that includes ten of the largest suppliers of electronic physical security products. We provide complete coverage of the electronic security market, with dedicated reports on a variety of markets including: video surveillance, security AI, physical security as a service, access controls, intruder alarms, fire detection, entrance control, drone detection and explosives, weapons & contraband detection equipment.

The level of detail is unmatched. Our reports can have as many as 200 data tables that analyze the market by product type, industry sector, country and sales channel. With analysts based in Europe, the US and Asia, we are also able to provide global coverage with local market insight.

Our range of products and services includes detailed annual market reports, quarterly market trackers and customer surveys. As well as the off-shelf studies, we also offer custom research and strategy consultancy services, and have successfully completed projects for some of the world's largest security firms.

Our “Ask an Analyst” Service Provides Best in Class Customer Support

Whether you need guidance to navigate the service, information regarding our methodologies or you want to better understand a data trend, Omdia’s support team is here to help.

Draw on our expertise

- Make the right decisions
- Sanity-check your own findings
- Get the most out of your subscription
- Understand more about our methodologies

Our Ask an Analyst service gives you direct contact via telephone, email or face-to-face session with our expert analyst team:

ABOUT OMDIA

Omdia is a global technology research powerhouse, established following the merger of the research division of Informa Tech (Ovum, Heavy Reading, and Tractica) and the acquired Omdia technology research portfolio*. We combine the expertise of more than 400 analysts across the entire technology spectrum, covering 150 markets. We publish over 3,000 research reports annually, reaching more than 14,000 subscribers, and cover thousands of technology, media, and telecommunications companies.

Our exhaustive intelligence and deep technology expertise enable us to uncover actionable insights that help our customers connect the dots in today's constantly evolving technology environment and empower them to improve their businesses—today and tomorrow.

* The majority of Omdia technology research products and solutions were acquired by Informa in August 2019 and are now part of Omdia.
