## Provides comprehensive analysis of the safe city space, including technologies used in safe city initiatives such as video surveillance and control room solutions

This is the fifth edition of an Omdia study on the Safe City market. Omdia defines 'Safe City' as a security concept that integrates critical security information from a range of sources onto a consolidated IT platform. As a result, the Safe City concept promotes interoperability between law enforcement, traffic and other agencies by taking a multiagency approach to emergency response.

The market is growing rapidly as cities seek to leverage video surveillance and critical communications infrastructure by coupling these systems with advanced integration software. With the emergence of sensors, predictive analytics and enhanced connectivity, the ability to achieve complete situational awareness has reached new levels, and cities seek to benefit from this.

The report provides global insight into the safe city concept and its opportunities for technology vendors, systems integrators and consultancies. Additionally, it examines safe city architecture and requirements as well as successful use cases on a regional basis. Over 1,800 cities have been assessed using various indicators from the to provide perspective on the markets with the highest safe city potential.

# Report Coverage

KEY ISSUES ADDRESSED	COVERAGE	APPLICABLE TO
<ul style="list-style-type: none"> <li>Which countries and cities offer the most potential for adopting Safe City projects in the future?</li> <li>What defines a Safe City? How does this fit within the Smart City concept?</li> <li>What is driving demand for Safe City projects across the globe? How do these drivers vary on a regional basis?</li> <li>Who are the decision makers and stakeholders within Safe City projects?</li> <li>Who are the major technology providers and integrators in the Safe City space?</li> </ul>	<p><b>Measures</b></p> <ul style="list-style-type: none"> <li>Safe City Index – Provides a clear picture of the countries and cities that have the highest potential to adopt safe city projects. Market drivers analyzed include:           <ul style="list-style-type: none"> <li>GDP</li> <li>Country budget and expenditure</li> <li>Population growth</li> <li>Strategic, political, security, and sovereign risks</li> </ul> </li> <li>Qualitative analysis accompanies the statistical data, providing insight into major regional and city trends</li> </ul>	<p><b>Market Analysis</b></p> <p>Discussion of the use, applications, and potential of:</p> <ul style="list-style-type: none"> <li>Video surveillance</li> <li>Enterprise and IP storage for video surveillance</li> <li>Video analytics</li> <li>Command and control room technologies</li> <li>Physical security information management (PSIM) software</li> <li>Broadband LTE</li> <li>Information and communications technology (ICT)</li> </ul> <p><b>Other Topics Covered</b></p> <ul style="list-style-type: none"> <li>Safe city vendor selection</li> <li>Artificial intelligence (AI) and deep learning</li> <li>Safe city profiles</li> <li>Key challenges</li> <li>Vendor profiles</li> </ul> <p><b>Regions</b></p> <ul style="list-style-type: none"> <li>Asia Pacific</li> <li>Europe</li> <li>Latin America</li> <li>Middle East and Africa</li> <li>North America</li> </ul>
		<ul style="list-style-type: none"> <li>Security systems integrators</li> <li>Security equipment vendors</li> <li>Distributors</li> <li>Investors</li> </ul>

### ABOUT OMDIA

Omdia is a global technology research powerhouse, established following the merger of the research division of Informa Tech (Ovum, Heavy Reading, and Tractica) and the acquired Omdia technology research portfolio.\* We combine the expertise of more than 400 analysts across the entire technology spectrum, covering 150 markets. We publish over 3,000 research reports annually, reaching more than 14,000 subscribers, and cover thousands of technology, media, and telecommunications companies. Our exhaustive intelligence and deep technology expertise enable us to uncover actionable insights that help our customers connect the dots in today's constantly evolving technology environment and empower them to improve their businesses—today and tomorrow.

\*The majority of Omdia technology research products and solutions were acquired by Informa in August 2019 and are now part of Omdia.

# Table of Contents

## Chapter 1 – Introduction, scope, method

- Safe city concept
- Technology scope
- Geographic scope
- Research method

## Chapter 2 – Market statistics and analysis

- Technology trends enabling safe city
- Safe city market breakout
- Safe city market by region and technology category
- Revenues by technology segment

## Chapter 3 – Safe city projects

- Project history
- Safe city projects by region
- Key challenges
- Project tendering
- Decision makers
- Procurement
- Vendor selection
- Project phases

## Chapter 4 – Safe city index

- Top safe city candidates
- Safe city profiles
  - Asia Pacific
  - Europe
  - Latin America
  - Middle East and Africa
  - North America

## Chapter 5 – Vendor profiles

- Vendor profiles
