Automotive Semiconductor Market Tracker

Part of Semiconductor Market Service Area Package

Essential for a competitive understanding of the comprehensive automotive semiconductor market and it reports on 33 unique semiconductor device types used across over 50+ different primary vehicle electronic applications. The tracker is built from the bottom up, driven by vehicle production and electronic module fitment projections.

“...The adoption of ADAS and electric vehicle powertrain systems in the automotive sector have grown rapidly. The semiconductor components that make up these electronic systems per vehicle will quadruple by 2025. It is crucial for companies to understand the magnitude of this rapid growth, and which applications and devices are the main drivers."

Automotive Semiconductor Market Tracker

Part of the Semiconductor Market Service Area Package

Comprehensive automotive semiconductor tracker that covers the latest market conditions and forecasts for component devices and vehicle applications

HOW OMDIA HELPS YOU

- Provide the latest market size of the automotive semiconductor industry by sub-devices and vehicle applications
- Provide five years of market forecasts and offer unique insights based on industry mega-trends
- Offer deep-dive analysis of the market based on global vehicle production numbers and supplier-specific KPIs

KEY QUESTIONS ADDRESSED

- What is the current market size of the automotive memory IC? What is the split between DRAM and flash memory? What is the percentage growth from the previous year?
- Who are the market leaders in various automotive semiconductor device types? What is my firm's position within the automotive MCU, logic IC, or amplifier & comparator sector?
- What is the future outlook for the automotive semiconductor industry? What will be the market size of CMOS image sensors for ADAS application in the next five years? How will the electric vehicle powertrain application affect the growth of the discrete category?
- How many semiconductors are embedded in a vehicle? per ICE? Which application requires the most amount of semiconductor in battery electric vehicles?

Automotive Semiconductor Market Tracker

Comprehensive automotive semiconductor tracker that covers the latest market conditions and forecasts for component devices and vehicle applications.

**DETAILS**
- **Frequency:** Semi annually updated
- **Deliverable:**
  - Database (XLS)
  - Report with analysis (PDF)

**MEASURES**
- Semiconductor revenue by device type
- Semiconductor revenue by application type
- Semiconductor units by device type
- Semiconductor units by application type
- Vehicle production units

**COVERAGE**
- **Timeline:**
  - 5-year annual forecast (2021 – 2025)
  - Base historic years (2018 – 2020)
- **Device Types:**
  - Memory IC (6)
  - Microcomponent IC (6)
  - Logic IC (4)
  - Analog IC (5)
  - Discrete (4)
  - Optical semiconductor (4)
  - Sensors & actuators (1)
- **Vehicle Applications:**
  - ADAS (10)
  - Body & convenience (14)
  - Chassis & safety (8)
  - Infotainment (8)
  - Powertrain & H/EV powertrain (10)
- **Regions:** Global

**Note:** A number in parentheses represents the number of unique sub-level device types or sub-level vehicle applications.

**APPLICABLE TO**
- **Industry Segments:**
  - Automotive OEMs and supply chain
  - Semiconductor suppliers and manufacturers
  - Semiconductor component suppliers
  - Business consulting and financial firms
- **Persona/Function:**
  - Procurement
  - Product development
  - Business development
  - Strategic planning
  - Product marketing
  - Business marketing
### Table of Contents

**Automotive Semiconductor Market Tracker**

Comprehensive automotive semiconductor tracker that covers the latest market conditions and forecasts for component devices and vehicle applications

#### TABLE OF CONTENTS

<table>
<thead>
<tr>
<th>Component device market covered</th>
<th>Supplier rank by market shares</th>
<th>Semiconductor contents per vehicle types</th>
<th>Additional table</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Revenue</td>
<td>• Overall automotive semiconductor revenue rank</td>
<td>• Revenue by device per ICE</td>
<td>• Device and application pivot table data</td>
</tr>
<tr>
<td>• Units</td>
<td>• Top 10 in memory IC</td>
<td>• Revenue by device per BEV, PHEV, FHEV, and MHEV</td>
<td>• Device, application, and vehicle type definitions</td>
</tr>

Our “Ask an Analyst” Service Provides Best in Class Customer Support

Whether you need guidance to navigate the service, information regarding our methodologies or you want to better understand a data trend, Omdia’s support team is here to help.

**Draw on our expertise**
- Make the right decisions
- Sanity-check your own findings
- Get the most out of your subscription
- Understand more about our methodologies

Our Ask an Analyst service gives you direct contact via telephone, email or face-to-face session with our expert analyst team:

- **Tom Coate**
  Customer Success Manager

- **Kären Dyer**
  Customer Success Manager

96% of our customers rate our service as Excellent or Very Good
Omdia is a global technology research powerhouse, established following the merger of the research division of Informa Tech (Ovum, Heavy Reading, and Tractica) and the acquired Omdia technology research portfolio*. We combine the expertise of more than 400 analysts across the entire technology spectrum, covering 150 markets. We publish over 3,000 research reports annually, reaching more than 14,000 subscribers, and cover thousands of technology, media, and telecommunications companies.

Our exhaustive intelligence and deep technology expertise enable us to uncover actionable insights that help our customers connect the dots in today’s constantly evolving technology environment and empower them to improve their businesses—today and tomorrow.

* The majority of Omdia technology research products and solutions were acquired by Informa in August 2019 and are now part of Omdia.
