About Omdia’s Service Provider Enterprise and Wholesale Research

Omdia helps service providers establish a coherent strategy while building, running, and scaling a profitable B2B business. As more businesses choose to run more ICT as managed or cloud-based services, so service providers find themselves competing against and partnering with, an ever more complex ecosystem of vendors and platform providers.

Omdia’s expert team of analysts provides strategic advice based on a robust foundation of market data to help service providers transform how they build, sell, monetize and support new services, from network to cloud, to the digital workplace.

Custom solutions

Omdia’s consulting services offer a true end-to-end service capability across all aspects of your product lifecycle, from concept and product development, to go-to-market and sales effectiveness. Contact us if you have a project that you would like to discuss with a member of the team.
Our “Ask an Analyst” Service Provides Best in Class Customer Support

96% of our customers rate our service as Excellent or Very Good
ABOUT OMDIA

Omdia is a global technology research powerhouse, established following the merger of the research division of Informa Tech (Ovum, Heavy Reading, and Tractica) and the acquired Omdia technology research portfolio*. We combine the expertise of more than 400 analysts across the entire technology spectrum, covering 150 markets. We publish over 3,000 research reports annually, reaching more than 14,000 subscribers, and cover thousands of technology, media, and telecommunications companies.

Our exhaustive intelligence and deep technology expertise enable us to uncover actionable insights that help our customers connect the dots in today’s constantly evolving technology environment and empower them to improve their businesses—today and tomorrow.

* The majority of Omdia technology research products and solutions were acquired by Informa in August 2019 and are now part of Omdia.
