

Touch Panel Cover Lens & CPI Report - 2021

Part of the Small & Medium Displays & Touch Interface Service Area Package

Kimi Lin, Senior Analyst

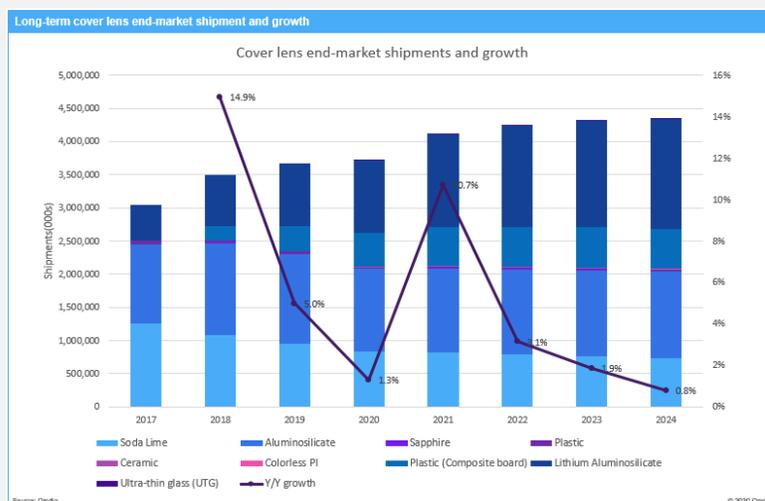

Published in May 2021

The annual Touch Panel Cover Lens & CPI Report offers a comprehensive analysis of cover lens market forecasts on almost all consumer and commercial applications, technologies, and industry trends.

This annual report provides cover lens shipments for consumer applications and a five-year forecast. The report includes an analysis and data in pivot table format of different applications, cover materials, shape, location, and sizes.

The report also reviews topics related to the cover lens industry, 3D cover lens finishing, 3.5D cover glass development, composite material development, flexible cover lens (CPI&UTG) development, automotive cover lens, cover lens suppliers and finishers and more, which enables subscribers to see the dynamics of the whole cover lens & CPI industry.

Additionally, this report includes 29 cost models and analysis that enable subscribers to see the key elements that have an impact on the total cost of cover lens common to the industry.

Report Coverage

KEY ISSUES ADDRESSED	COVERAGE	APPLICABLE TO
<ul style="list-style-type: none"> Cover lens end market forecast for application in shipment, revenue and area Cover lens material market forecast for application in shipment, revenue and area Comprehensive pivot parameters for data break-down and handy use Detailed cover lens manufacturing process, coating, technologies introduction Cover lens cost modeling and what factors have a significant impact on total cost 	<p>Frequency, Time Period</p> <ul style="list-style-type: none"> Annual update Two-year result, & five-year forecast <p>Measures</p> <ul style="list-style-type: none"> End market demand and forecast for major consumer applications by different parameters Material market demand and forecast for major consumer applications by different parameters Material classify (Al-Si, Soda lime, Plastic, Sapphire, ceramic, colorless PI, composite board) Shape classify (2D, 2.5D, 3D, foldable) Cover glass manufacturing process 3.5D cover glass development Surface coating Cover lens cost modelling and parameter impact analysis 	<p>Vertical Markets Covered</p> <ul style="list-style-type: none"> Cover lenses for major consumer and commercial applications <p>Technologies Covered</p> <ul style="list-style-type: none"> Cover lens manufacturing process New materials for flexible cover lens Surface coating treatments 3D cover lens finishing 3.5D cover glass development Composite board finishing Automotive cover lens <p>Regions, Markets</p> <ul style="list-style-type: none"> Asia Pacific, EMEA, Americas
		<ul style="list-style-type: none"> Brand manufacturers, OEMs, ODMs for mobile phones <ul style="list-style-type: none"> Procurement managers for display components Display/touch module suppliers <ul style="list-style-type: none"> Product planning managers Procurement managers for display components Cover lens finishers suppliers <ul style="list-style-type: none"> Product marketing intelligence managers Procurement managers for components Cover lens material suppliers <ul style="list-style-type: none"> Product marketing intelligence managers Investment community <ul style="list-style-type: none"> Fund managers, investors, analysts with an interest in the cover lens industry

ABOUT OMDIA

Omdia is a global technology research powerhouse, established following the merger of the research division of Informa Tech (Ovum, Heavy Reading, and Tractica) and the acquired Omdia technology research portfolio.* We combine the expertise of more than 400 analysts across the entire technology spectrum, covering 150 markets. We publish over 3,000 research reports annually, reaching more than 14,000 subscribers, and cover thousands of technology, media, and telecommunications companies. Our exhaustive intelligence and deep technology expertise enable us to uncover actionable insights that help our customers connect the dots in today's constantly evolving technology environment and empower them to improve their businesses—today and tomorrow.

*The majority of Omdia technology research products and solutions were acquired by Informa in August 2019 and are now part of Omdia.

Table of Contents

Key findings

executive summary

Cover lens demand and market forecast

- End-market forecast overview
- End-market forecast by application
- Material market forecast overview
- Material market forecast by material
- Material market forecast by shape and location

Cover lens cost model

- Remarks for cost model
- Cost models for major applications
- Cover glass cost trend analysis
- Forming and cover glass cost
- Surface coating and cover glass cost

Foldable cover lens: Ultra-thin glass VS

Colorless polyimide

- Foldable device form factor
- Current foldable cover lens solutions
- Ultra-thin glass: Characteristics and finish process
- Insight of foldable cover lens in long term

The evolution of cover lens raw materials

- Analysis of Apple's ceramic shield
- Development of lithium aluminosilicate glass
- Composite material for rear cover
- Aluminosilicate with middle percentage of Al+

Cover glass finishing and cosmetic decoration trends

- Cover glass finishing process
- Market position of 2D, 2.5D, 3D shape cover
- Cosmetic development for cover glass

Surface coating development trends

- AR/AG coating treatments
- AF/AS, anti-microbial coating treatments
- Hard coating treatments

Automotive cover lens form factor

- Evolution of auto center stack display (CSD)
- Development of automotive CSD cover lens
- Adhesive selection for automotive bonding

Cover glass supply chain

- Major raw glass suppliers
- Major cover glass finishers
- Major China equipment suppliers
