	Video Content Security	Merrick Kingston	May-20
	Optical Network Hardware	Esther Cheh	Aug-20
	SIP Trunking	Diane Myers	Aug-20
	Smart Home Vendors	Blake Kozak	Dec-20
	UCaaS Scorecard: North America – 2021	Diane Myers	May-21
	SIP Trunking Service Provider: North America – 2021	Diane Myers	Aug-21
	Smart Home Vendors	Blake Kozak	Dec-21
Decision Matrix	Enterprise ML Development Platform	Michael Azoff	Mar-20
	Hyperconverged Infrastructure Solution	Roy Illsley	Jun-20
	Multichannel Cloud Contact Center Solution	Ken Landoline	Jul-20

The above was updated Dec 2021

Principles

- The Omdia Universe is our flagship Vendor Selection methodology designed to robustly and holistically assess key vendors in growing and established technology markets. It evaluates and makes recommendations based each vendor’s capability and (with the help of our partner TrustRadius) the experience customers have had with their solution.
- The Omdia Market Radar is designed to evaluate vendors in emerging technology areas. It evaluates the vendors’ capability, but not customer experience due to the technology’s relatively nascent status.
- Omdia’s portfolio also includes reports based on legacy Ovum and IHS Markit methodologies (Decision Matrix and Scorecard respectively).

FOR FURTHER HELP

All Omdia Vendor Assessment reports are available end-users via our Enterprise Decision Maker Intelligence Service. For inquiries about this service or feedback on our publication schedule, please contact:
