

Display Dynamics Spotlight Service

Delivers timely, expert-led analysis of fast-moving developments across the global LCD and OLED industry. Designed for agility.

Key Questions Answered

- How is the global display supply chain evolving across panel makers, component suppliers, and OEM/ODMs in response to capacity shifts and regional realignments?
- What are the forecasted growth trajectories and demand across major applications—TVs, smartphones, monitors, automotive and public displays?
- How are macro trends like geopolitics, ESG, and inflation shaping display strategies?
- Which players are leading innovation—and how are others adapting?
- What is the analyst's opinion about the advanced technologies?

What We Offer

- Timely updates on news, product developments and global events shaping the display industry
- Expert-led analysis on how ongoing changes across the supply chain and technology landscape impact your business
- Trusted intelligence and commentary to support confident decisions in a fast-evolving global display market
- Best-in-class **Ask an Analyst** service bringing direct access to experts

David Hsieh

Senior Research Director, Displays

Deborah Yang

Chief Analyst, Display & OEM Supply Chain

Ricky Park

Senior Principal Analyst, Display Outlook

SPEAK WITH OUR EXPERTS

Delivering a comprehensive view of display market dynamics

Key Deliverables

Strategic Market Database

A **monthly**-updated database offering high-level market insights, including display shipments by supplier, revenue trends, and key application breakdowns.

Monthly Market Brief

Concise, expert-led analysis of **monthly** market shifts, combining essential insights and display dynamics into a single, easy-to-use report.

Special Reports

Ad hoc analysis of major events, breaking news, and disruptive developments impacting the display industry—delivered when it matters most.

Analyst Insights & Advisory

Direct access to Omdia's display market experts for **on-going** strategic support, data interpretation and validation of market assumptions.

Scope of Work

Technologies Covered

LCD, OLED, flexible, transparent and touch displays—across small, medium and large formats

Applications Tracked

Smartphones, tablets, TVs, monitors, notebooks, automotive, public displays

Market Segments

Comprehensive coverage of the large display, small-to-medium display, component markets, with insights on OEMs, brands, end-user trends

Research Areas

- Global display shipments by application, region, and supplier
- Panel inventory levels, pricing trends, and fab utilization
- OEM/ODM shipment forecasts and brand production planning
- Component-level supply and demand tracking
- Industry financial performance and quarterly updates
- Market outlooks and forecasts
- Special topic investigations and trend analysis

Geographic Scope

Asia (China, Korea, Japan, Taiwan) and global brand and OEM coverage.

Entities Covered

Extensive tracking of leading panel suppliers, OEMs and consumer brands shaping the display landscape
