

# Display Glass Market Tracker

Optimize display glass investments with comprehensive market intelligence.

## Key Questions Answered

- How are display glass capacity, shipments, and pricing trends evolving across different regions and technologies?
- Which suppliers dominate the display glass substrate market, and how is their market share distributed? How about their financials ? Who are the emerging glass substrate makers in China and India ?
- What are the current supply-demand dynamics affecting the display glass industry?
- What technological developments are shaping the aluminosilicate cover glass segment?

## What We Offer

- Comprehensive quarterly data on display glass capacity, shipments, and pricing across China/Taiwan, Korea, Japan and India
- Detailed supply chain analysis by fab, maker, generation, country, and technology
- Expert insights from analysts with extensive industry experience based in Asia
- Unique connection of upstream and downstream market dynamics through integration with related display industry services
- Direct access to display specialists through **"Ask an Analyst"** service

**Tadashi Uno**

*Research Manager*  
**Display Components & Cost**

**Queenie Jiang**

*Senior Analyst*  
**Display Driver IC and China Components**

**SPEAK WITH OUR EXPERTS**

# Delivering comprehensive display industry intelligence

## Key Deliverables

### Market Trackers

Comprehensive quarterly tracking of display glass capacity, OLED/LCD supply demand, mini/micro LED technologies, display driver ICs, OLED materials, and optical film markets with detailed shipment and pricing data.

### Reports

In-depth analysis through specialized XR application reports and LCD/OLED cost models, providing comprehensive evaluation of manufacturing technologies, components, and supply chain dynamics across the display industry.

### Market Tracking

Regular quarterly updates on regional display glass capacity, OLED processes, and market forecasts delivered through structured technical presentations.

### Analyst Insights and Access

Direct support from Asia-based analysts.

## Scope of Research

### Coverage

- Comprehensive global coverage with detailed regional analysis for China, Taiwan, Korea, Japan and India.
- Extensive tracking of display technologies including OLED, LCD, Mini LED, Micro LED, and flexible displays across manufacturing processes and applications
- Detailed metrics on substrate area capacity, glass size, fab area, production volumes, and cost structures

### Key Vendors Covered

- Glass manufacturers: Corning, AGC, NEG, Asahi/Hoya, Tunghsu, CnBM, Caihong.
- Display manufacturers: AUO, BOE, China Star, HKC, CHOT, Samsung Display, LG Display,
- Component suppliers: Display driver IC manufacturers, optical film producers, OLED material suppliers
- Equipment providers: Manufacturing and processing technology vendors
